## SUMMARY

Innovative MERN Stack Developer with hands-on experience in dynamic web applications. Skilled in creating user-centric solutions and optimizing application efficiency. Good Understanding of Logics and DSA. Seeking a Full Stack Developer role to leverage expertise and drive user engagement.

## EXPERIENCE

### MERN Stack Developer

Bussibeeds Ed. Tech Pvt. Ltd.

July 2024 - August 2024, Jaipur, Raj.

- Developed projects including a **chat application**, **youtube videos Downloader**, **online food ordering system**, and **PG booking app**, utilizing the MERN stack (Node.js, Express.js, React.js, MongoDB).
- Implemented **JWT authentication** and **Socket.io** for real-time communication and secure user sessions.
- Integrated AI features and utilized the **Tydl library** to enhance user experience and app functionality.

### Frontend developer

Aerophantom

August 2023 - August 2023, Mansarowar, Jaipur

- Designed and developed a high-converting UI/UX for the portfolio website using HTML, CSS, and JavaScript.
- Deployed the website to a public domain to enhance visibility and drive course enrollments.
- Analyzed business objectives and audience needs to optimize design for user engagement and conversion.
- Collaborated with cross-functional team to integrate UI components, resulting in a 15% increase in user engagement within 3 months.

## PROJECTS

### Online Food Delivery Application

- Responsive food delivery app** using the MERN stack, with category browsing, item viewing, and favourites functionality.
- Enabled CRUD operations** for cart management and order placement, optimizing the interface for a seamless, device-friendly experience.

### PG Booking Application

- PG booking Express app with real-time status updates, user authentication, and CRUD operations for both clients and owners.

### YouTube Videos Downloader

- Enabled users to download videos or playlists with customizable quality (144P to 1024P) and format options (MP4, MP3).

### Anonymous Chat Application

- an anonymous real-time chat application, Matched users randomly for identity-free conversations in private and group settings.

### URL Shortner

- Enabled URL shortening, management, and tracking with customizable links and user authentication.
